

Meritain Health High Cost Drug Management

Meritain Health's High Cost Drug Management program is a timely, tailored program designed to help you save on high-cost drugs.

Who is this program for?

This program is for members prescribed injectibles and home infusions that cost over \$2,000, who also do not qualify for case management.

Why is this program helpful?

Through collaboration with your Pharmacy Benefit Manager (PBM), we provide additional support to help you manage your healthcare spending.

The Meritain Health High Cost Drug Management program has steps to ensure the program is right for you

Here are the steps involved with this program:

1. You precertify your high-cost medication.
2. Meritain Health opens your case and assigns it to the High Cost Drug Management department.
3. We contact your provider to discuss a treatment plan.
4. We determine the medical necessity of your medication.
5. Next, we review your plan for any requirements or exclusions.
6. We compare the cost of drugs and administration using our available resources.
7. We provide you with education and support regarding your medication and administration.
8. We work with providers and pharmacies to set up your services.
9. Lastly, we provide ongoing education and support to identify any possible complications.
