Our Vision:

“Called by Christ. Called to Worship. Called to Serve.”

Our Mission:

We are called by Christ to be his disciples and we strive to answer His call in our daily lives through prayer, worship, Bible study, service, and faith sharing.

We are called to worship, regularly and corporately. We respect and will submit to the authority of Scripture. Our worship will include in-depth learning about His Word through Bible study, prayer, and preaching, as well as celebrating the Sacraments. We will also seek to bring glory to God through sharing our artistic and creative talents. We will grow in our earthly relationships through our relationship with Christ.

We are called to serve – one another, our neighbors and the wider world. Our service will begin with listening and discerning so we may know what best to do. It will include witnessing and evangelizing, and local outreach to those in need. We will bring God’s love and purpose into our congregation and home community of the greater Twin Tiers area. Our Reformed tradition leads us to recognize and minister to the spiritual needs of all those around us. We will also support missional work in areas less privileged than ours, both across the country and around the world.

Seeking Full Time Pastor

Twin Tiers Evangelical Presbyterian Church is in the Finger Lakes region of central New York State. We are seeking a full time Pastor for our diverse congregation of approximately 50. One of our hallmarks is our involvement in our community as we seek to share the love of Christ. We are also a body that loves and supports each other through prayer and in our times of fellowship. We actively seek to understand the word of God and how we should live. We have several congregant-led Bible studies/small groups and an active well-attended Sunday school program.

We believe that God has prepared someone to lead us who shares our vision and values. As we value theological training in the Reformed tradition, that person has an M. Div. and is EPC ordained or ordainable. As we value God’s word, we trust God to have prepared that person with a depth of knowledge of Scripture based on an understanding that the Bible is fully inspired by God. He or she possesses the ability to share that knowledge with us to foster spiritual growth. As a congregation that values sharing our joys and burdens in prayer, we are trusting God for someone who possesses an active prayer life and can help us develop this discipline. As we find joy in our time of worship together, we have faith that God has instilled strong worship leadership skills in the person he is sending us. As a body that seeks to reach out to the community and beyond with the good news of Christ, we expect that God will provide us with someone with the same goal and the gifts to help us accomplish it. Finally, as we value a team approach to ministry, we have faith that God has gifted the person he has prepared to be our leader with a servant’s heart, organizational skills, and the ability to work with us to “get things done.” We are excited to meet this person and welcome him or her into our body of believers.
